Kyle,

I just want to double check that these are the files for the independent peer review of the Yellowstone. Also, can you let me know if you are ok with HQs edits

Tina

Hi Tina- these will be the files in need of review, correct? If not, can you send me all the files for the review asap. Thank you!

Here are the files for the Yellowstone Review. Are we still ok with moving forward with the NSTEPS review?

Tina

Hi Tina –

Attached are model input files and the model engine along with a .pdf file of the report/documentation for which we would like NSTEPS review. Please let me know if you have any questions and also please verify that you received the following attachments:

1. YellowstoneUpper_NSTEPS_review_draft.pdf (model documentation/report)
2. AT2K-UNCAS_Master_v1.1alpha.xlsm (model)
3. 9 model input files (.at2k extension) associated with the 3 transects on the Yellowstone river and the control, low dose, and high dose sections of Box Elder Creek.

Finally, in Appendix A of the .pdf, I have included questions we would like NSTEPS reviewers to address (along with any others they might consider).

Thanks Tina.

Sincerely,

Kyle Flynn, Ph.D., P.E., P.H.

Hi Tina –

Sorry about the delay but was on vacation all last week and now finally getting caught up.

Anyway, the draft report has been done for nearly a month but I have not fully cleaned up the software yet. I have been working on this intermittently over the last 2 weeks and am hoping to have it done today. I will send report and data package as soon as I get that done.

Cheers,

Kyle

Hey guys,

I thought I should check in to see how things are coming with the Yellowstone Report. Wanted to see if you still wanted EPA to conduct a technical review? If so, can you give me an update on the timing? Thanks!

Tina
